SHALOM AVICHAIL

SOFTWARE ENGINEER

Tel Aviv, Israel • +972-587996841 • shalomavi3@gmail.com •
linkedin.com/in/shalom-avichail • www.github.com/shalomavi •

A Fullstack Software Engineer with hands-on experience building production applications and integrating LLM APIs and AI-driven features. Skilled across the stack - React and TypeScript on the frontend, Django and PostgreSQL on the backend - with a growing specialization in AI-powered architectures.

TECHNICAL SKILLS

- **Typescript, Javascript, Python, C**
- React, Django, Redux, Redux - Saga, Next.js, Flask, FastAPI, Selenium, WebSocket, Node.js, Express.js, SQL, Postgress, SQLite, MongoDB, HTML, CSS, Tailwind

PROFESSIONAL EXPERIENCE

Full Stack Developer — July 2024 – Present

Rokka.ai

- Contributed to two flagship applications: a CMS for real-time data monitoring and a social-matching app; developed and deployed Android and iOS apps for both products.
- Leveraged TypeScript, React, Redux, Redux-Saga, Django, PostgreSQL, GitHub and AI-driven analytics for data and customer engagement.
- Collaborated directly with clients to define and implement tailored solutions based on specific requirements, tracking progress and requirements management through Jira.
- Integrated LLM APIs to power AI-driven features across applications, enabling intelligent automation and enhanced user experiences.

Software Engineer Intern — January 2024 – July 2024

webeet.io

- Developed Fullstack features for a smart scheduling app using React, Next.js, TypeScript, Tailwind, Python, and Flask, gaining hands-on experience with ML/AI integrations and real-time databases (Firebase, MongoDB).
- Assisted in building an event-based notification system with WebSocket, supporting real-time in-app and email notifications.

Founder — May 2020 – December 2022

Aley Adamot (עלי אדמות)

- Founded and led an independent delivery service company, successfully managing end-to-end business operations, including scheduling, logistics, and customer service.
- Excelled in prompt order fulfillment, achieving high customer satisfaction through top-tier service and efficient delivery processes.

Financial Analyst — January 2020 – April 2020

Go No Go

- Analyzed business plans and conducted comprehensive market surveys, providing data-driven insights to support strategic decision-making.

Private Tutor — 2019 – 2020

- Taught economics, statistics, and Excel to undergraduate students, enhancing their understanding and application of complex concepts.

EDUCATION

AI for Developers — February 2026

Elevation

- Completed 30 hours of training in production-ready AI architectures, covering advanced prompt engineering, RAG pipelines, autonomous agents, and MCP integrations.

Software Engineering — December 2023

Masterschool

- Participated in an immersive, one-year software engineering training program, and completed hundreds of hours of practice and real-world industry projects.

Bachelor of Science (B.S.), Economics — November 2017

Ben Gurion University
